09:45 – 10:20	<b>Presentation</b> <ol style="list-style-type: none"> <li>1. How digital finance has broadly developed, a ground-up progress which has taken institutions and regulators by surprise. Why CFAI got interested in it and how we approached our research into this field.</li> <li>2. The potential benefits we see in the deployment of digital processes, DLT-based financial services, including the potential for enhanced financial inclusion especially in developing markets that suffer from lack of access to banking services.</li> <li>3. Main aspects and conclusions from our work on valuation models and tokenization. Perhaps describe the different models we explore in this work.</li> <li>4. The main risks to consider and how regulators are approaching this development so far. Including recommendations that we think regulators in Sub-Saharan Africa should be mindful of.</li> </ol>	<ul style="list-style-type: none"> <li>• By <b>Olivier Fines</b>, CFA – Global Head of Advocacy and Policy Research (EMEA), CFA Institute</li> </ul>
